The Will Writing Business

Every Adult Should Have a Will

Why? Here are a few reasons:

A Will allows you to describe the distribution of your estate.

Without a Will, one's estate would be divided according to intestate laws; essentially, you would have no control over where, or to whom, your assets go.

It allows you to name an Executor/Trustee. This is the person who will be responsible for carrying out your final instructions. Without a Will, the courts make this decision, which often leads to family fighting in a time that should be left for grieving.

It is how you name a guardian for your children. A Will lets you have a voice after you've passed. Without one, you have no say in what happens after your death. This means that a judge will appoint a guardian to your children, rather than you.

Why are Most Adults Missing a Will?

Wills are extremely important, so why do so few adults have one, and even fewer have one that is up to date?

"It's too expensive" is one of the most common misbeliefs. With a lawyer you could expect to pay thousands, but that isn't the only option anymore.

"It takes too much time"; another common misconception. While visits with a lawyer are inconvenient, the same Will could be made with us in no time.

Other common excuses include procrastination, wanting to wait for an important life event, assuming you have too little to leave behind, and assuming that your assets will go to the right people without a Will.

When you can solve these problems, your market potential is huge – just check out the stats on the right.

FAST FACTS

63%

Of American adults **do not** have a Will at all.

About Us

At USLegalWills.com, we are the market leader in online Will services in the United States.

We provide the tools for people to create their own legal Will, Power of Attorney, Living Will (Power of Attorney for Healthcare), and more.

“Our mandate is to allow people to create common legal documents in a very easy, convenient, private, secure and cost-effective manner, without the need to pay the high expenses of a lawyer. We go far beyond any do-it-yourself kit or online repository of legal forms and documents. If you wish, all of your legal documents can be stored and maintained by you online, in a completely private and secure manner. This will ensure that you can keep it updated to reflect any changes in your financial or family situation.”

We also offer our services in the Canada and the United Kingdom (England & Wales).

We were established in 2001 in Canada, 2003 in the U.S., and 2005 in the U.K.

We have helped hundreds of thousands of people to create their Will, and have never once heard of a single Will having a problem in going through probate.

Note that we are not a legal firm, but that we have lawyers on staff and that all of our services have been created by lawyers in the United States.

GREAT CUSTOMER SERVICE

We have a 99% satisfaction rate, phone and email support, and a 30-day money back guarantee.

Your users' satisfaction means a lot to you, and it does to us too.

Check out our reviews on page 7.

What Makes Us Different?

The service is provided by fully interactive software; it guides users step-by-step based on their family situation, customized to their state.

For example, legally you must include your spouse and minor children as beneficiaries. If a child is a minor, they must have a trust set up and a guardian named. You should then cover alternate scenarios in which both parents pass (i.e. a car accident); alternate executors, a residual beneficiary, and an alternate residual beneficiary must be named.

We cover everything.

We use the same software that many lawyers use to prepare Wills for their clients - except they charge hundreds for it.

A blank form Will kit will not guide you through any of these situations. There is a significant chance of a simple “fill in the blanks” Will not working.

We provide users with the option to have their Will reviewed by a lawyer.

Having been **in the business for over a decade**, we have a proven record of success. Our service is trusted, recognized, and it works.

Section 7.8 of 9

Have You Included Your Family? [Tell me more](#)

Just a reminder: Be careful if you have decided to disinherit your wife (Vivian Reef Raud), or any of your children, as they may have a claim on your estate.

Have you included your wife (Vivian Reef Raud), and all of your children in the distribution of your possessions?

Yes.

No, but it was intentional.

No. I would like to go back to make changes.

I'm not sure. Let me go back to review my decisions.

[< BACK](#) [SAVE](#) [NEXT >](#)

A reminder that we give when a user disinherits his or her spouse.

We are not a fill-in-the-blanks Will Kit, our service is highly interactive, and takes into account everything that the user writes in.

New Feature for 2016

Handling of **Blended Family Situations**, an issue which affects 12.6% of families, according to 2012 census data.

In these cases, if one leaves his or her entire estate to their second spouse without creating a trust, their children may lose their inheritance.

If a parent has children and then remarries, they must leave their estate in trust to their second spouse, or create a life-interest in the family home in order to protect the inheritance of their children.

Currently USLegalWills.com is the only service in the United States that adequately handles this situation.

We make it easy

Users can navigate through our service on their desktop or mobile. Save your progress on one device then go back to it later with another. We make the process simple, as it should be.

Completely Legal

To become a legal Will, the document must be signed in the presence of two witnesses who are not beneficiaries. There is no legal requirement to use a lawyer to prepare a Will, nor to have it notarized.

Who can write a Will? The law allows anybody to write their own Will as long as they are of sound mind when it is signed. In other words, a lawyer is not necessary.

Partnership Opportunities

Opportunity #1 | Link Service

The partner simply refers its clients or users to use USLegalWills.com, as an affordable and convenient way of creating their Will.

How does this work? All you need to do is include one of our links on your website, that's it!

Once the banner link is on your website, there's absolutely nothing more required from you. All ongoing support is handled by us; there is no incremental cost.

What would happen from our side? A custom landing page would be created, where your clients would complete their Will or other documents after clicking on your link.

For every sale, you earn a commission.

Contact information (or profile) of the client, as well as specific areas of interest can be directed back to you.

This option has been taken by **Intuit**, **SimpleTax**, the **Canadian Diabetes Association**, union groups, and many more.

Opportunity #2 | Embed Service

This option includes our white label "Embed" service; the ability to embed the complete LegalWills service within an iFrame on your website.

Everything is the same as with Opportunity #1, but the service can now be completed within your own website.

How does this work? We will supply you with a string of code to insert into your website - that's it.

Orders and emails are processed by USLegalWills.com. Once the initial setup is complete on your end, we'll take care of every transaction for you.

This option has been taken by several financial advisors, insurance brokers, and charity organizations.

Opportunity #3 | API Service

This option includes our white label API service; a complete stripping out of the LegalWills branding.

How does this work? Orders are processed, pricing is established, and emails are generated by the partner.

Services are purchased wholesale by the partner, directly from USLegalWills.com.

This allows partners to offer their own estate planning service directly from their website, and determine their own pricing (or make it free).

What would happen from our side? This option requires a slightly more technical implementation. Our company would work more closely with yours while we set up the API service. As always, we will be committed to successful and convenient delivery.

Commissions & Discounts

With Opportunity #1-2, you can earn commissions and offer discounts on any of our services.

How does this work? As a partner you will receive 30% of each sale; you can choose how to distribute this between your discount offered and your commission earned.

For example, a partner could offer a 10% discount and then earn a %20 commission (on each sale). In another example, you could choose to put the full 30% towards your commission. It's all up to you.

Partners can also offer discounts above 30%, but must cover the additional discount themselves.

Are there any Costs?

We handle all associated costs. While your organization can earn a 30% commission on each sale, we do not actually keep the remaining 70%. In most cases, our profit margin is equal to or less than our partners.

Why? We incur all legal, licensing, insurance, infrastructure, customer service, and product development costs. All that's left for you is profit.

Aggregated Reports

Keeping track of your partnership campaign and receiving your commissions is important. We make it as easy for you as possible.

Your organization will receive its own Login ID, which you can also create yourself by clicking on our Affiliates tab.
